# Introduction

Online Medical Support App is a system where people can buy medicine online and can find hospital and ambulance information easily and can consult with doctor

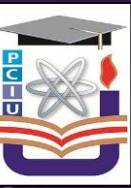

# Introduction (Continue)

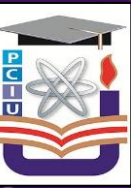

- Generally, To buy a medicine we have to visit pharmacy nearby.
- For find some medicine we have to visit several places and sometime it is very difficult to find some rare medicine.
- Sometime people don't know the actual medicine for their disease.
- There is only few large pharmacy in local area where we can get all type of medicine but they don't have any online facility to order medicine online.
- Sometimes it is also difficult to find hospital and ambulance and also doctor's contact number in emergency situation.

# Motivation

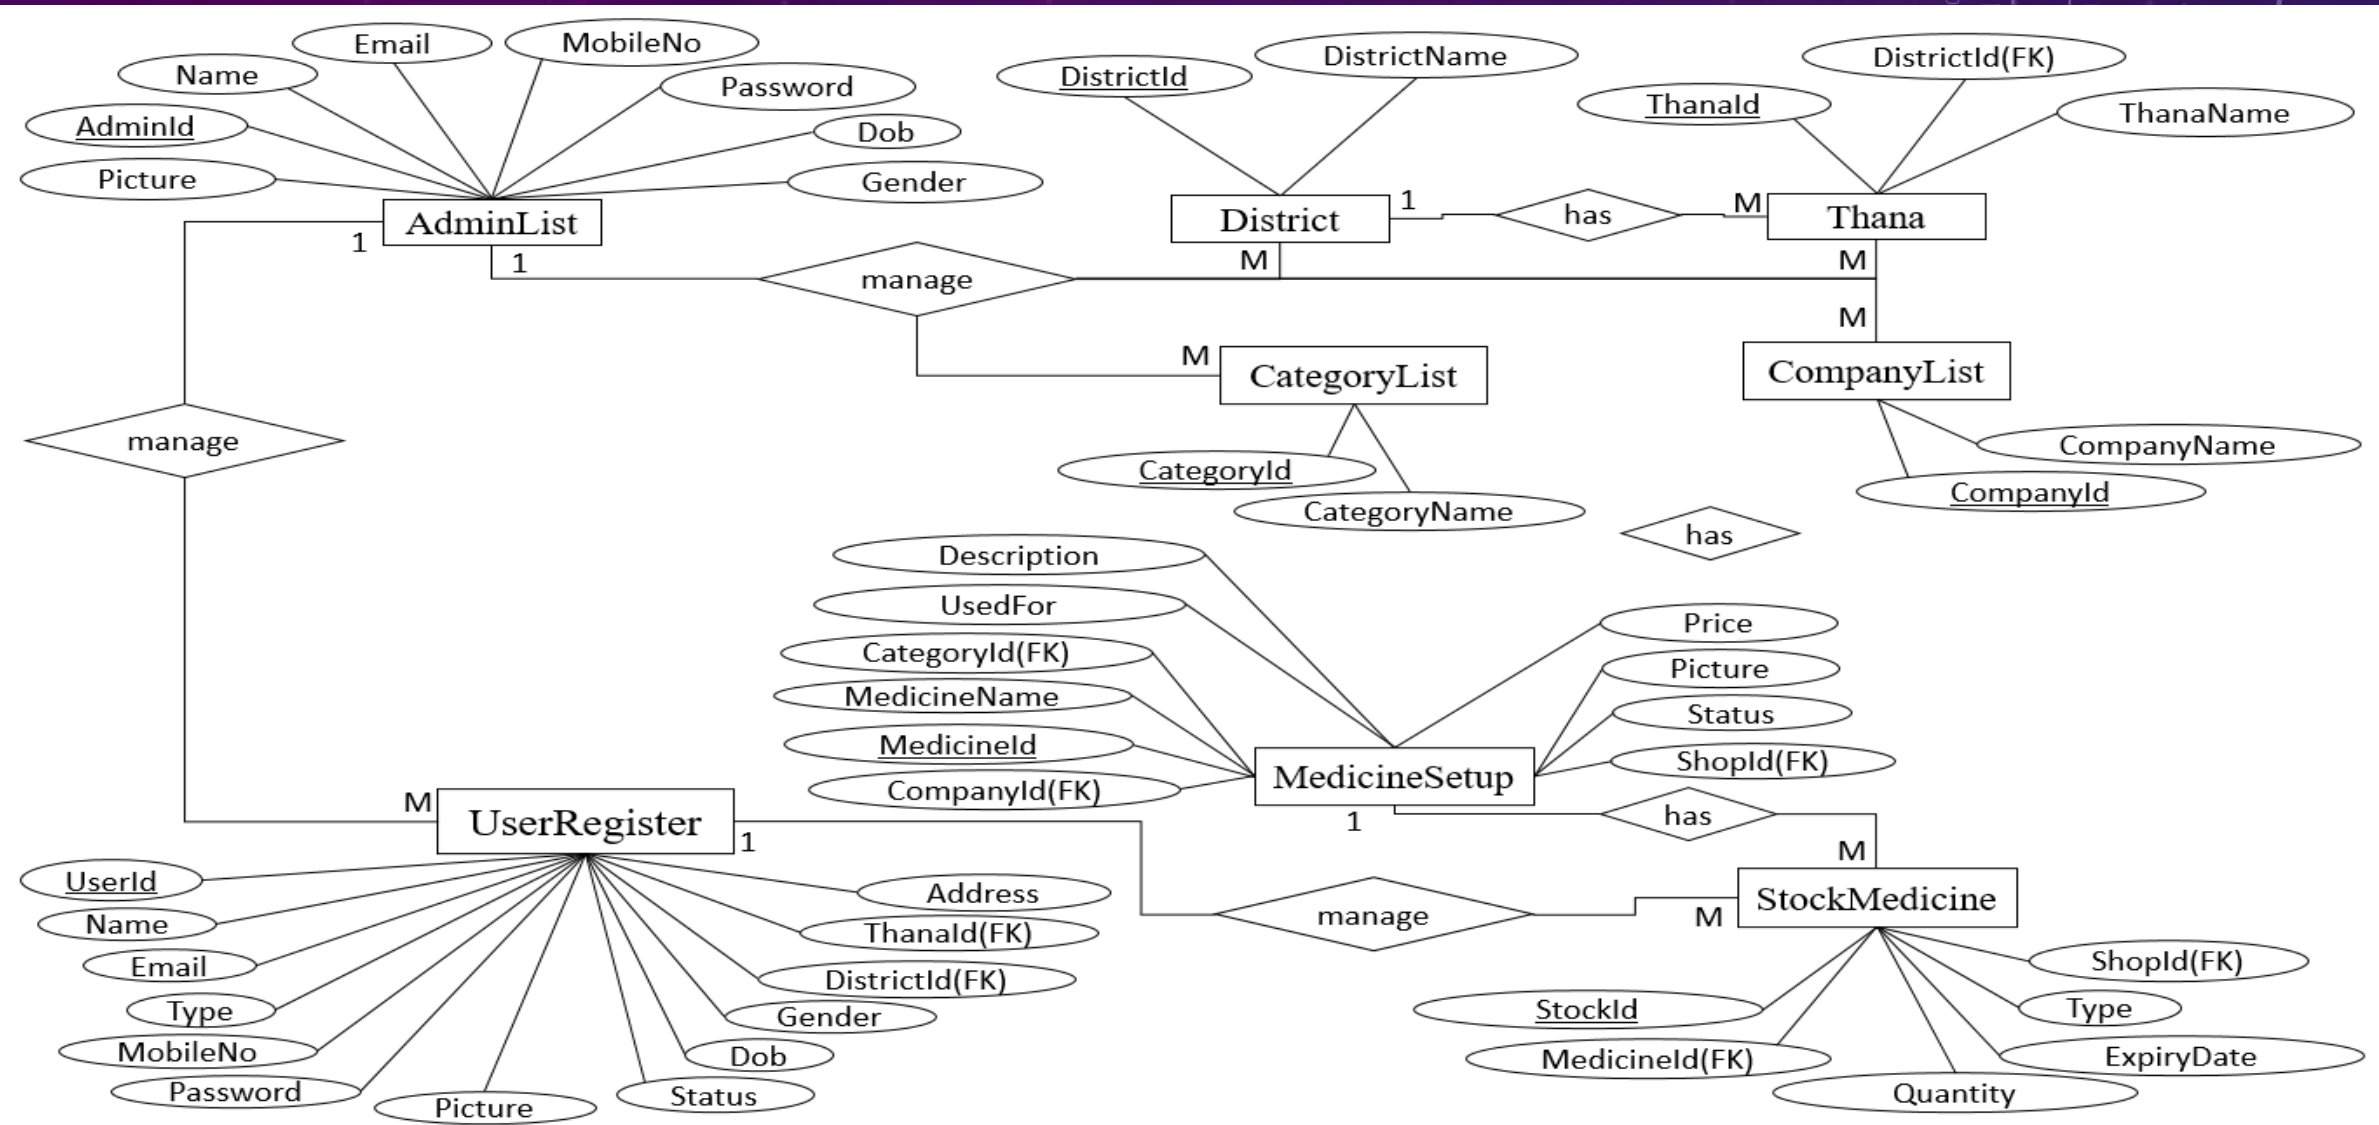

- People can find all types of medicine easily and order medicine online
- People can consult with doctor
- People can order medicine online by cash on delivery or online payment
- People can find medicine which they can't get in local pharmacy
- People can find hospital and ambulance contact number in emergency situation
- People can find medicine with their disease problem

# Objective

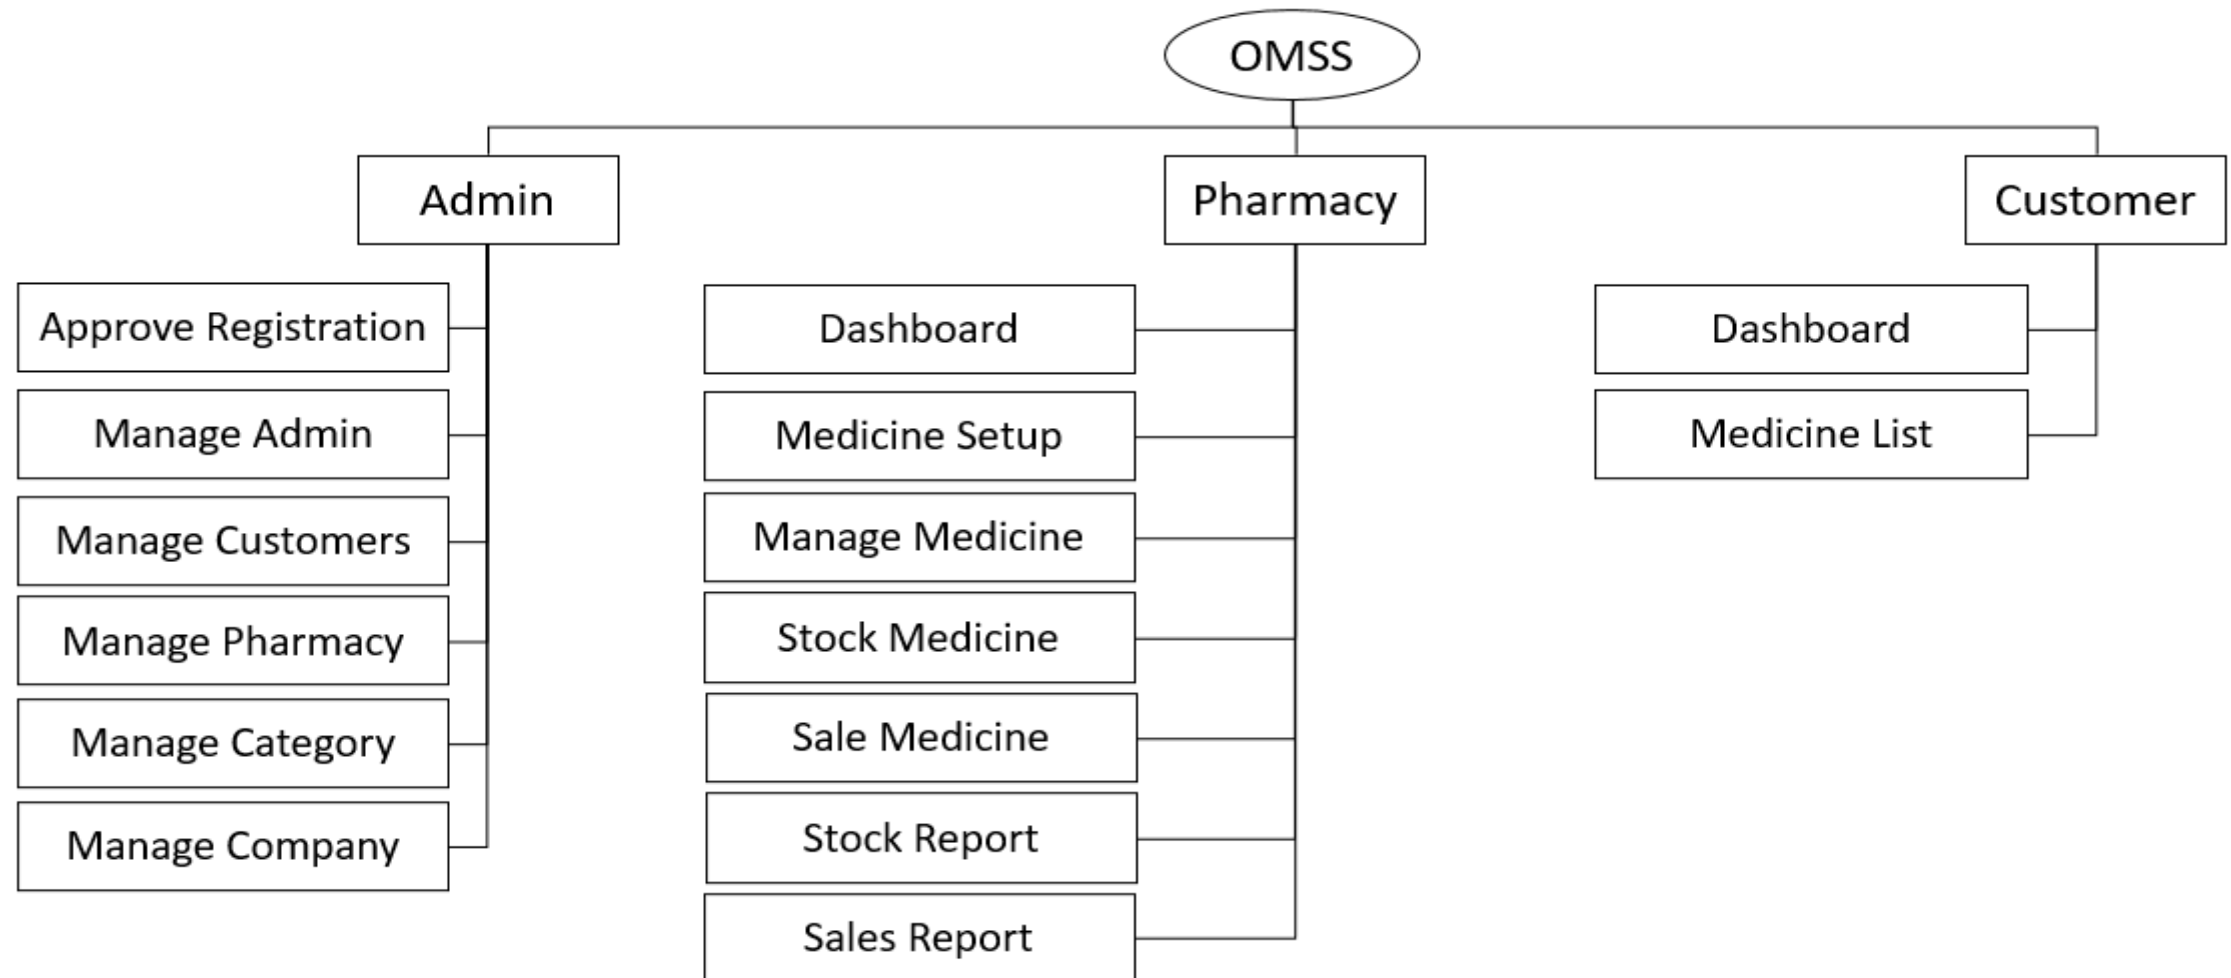

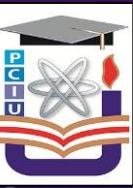

- The main objective of this system is to provide online medicine order facility by comparing medicine prices and get medicine in best price.
- This system also help people in emergency situation to find any hospital and ambulance contact number and doctor's number
- The project has been designed to merge all pharmacy in one place.

# Admin Panel

## Approve Pharmacy Registration

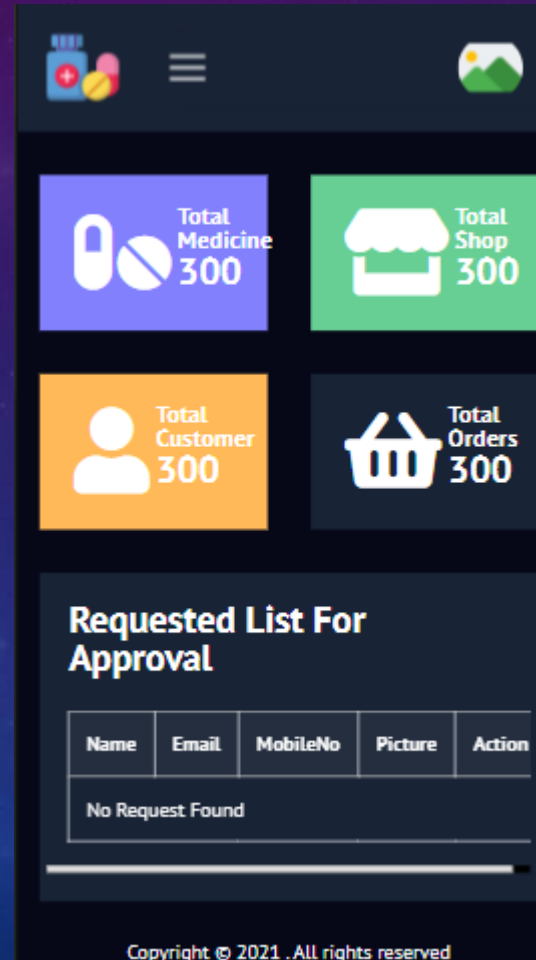

This screenshot shows the left sidebar of the Admin Panel. The sidebar contains the following menu items:

- Dashboard
- Admin
  - Add Admin
  - Admin List
- User List
  - Customer List
  - Pharmacy List
- Company List
- Category List

The main content area displays four summary cards:

- Total Shop: 300
- Total Orders: 300

At the bottom, there is a table with columns labeled 'Picture' and 'Action'. Below the table, there is a search bar and a pagination bar showing '1 of 1' items.

This screenshot shows the 'Requested List For Approval' section of the Admin Panel. The main content area displays four summary cards:

- Total Medicine: 300
- Total Shop: 300
- Total Customer: 300
- Total Orders: 300

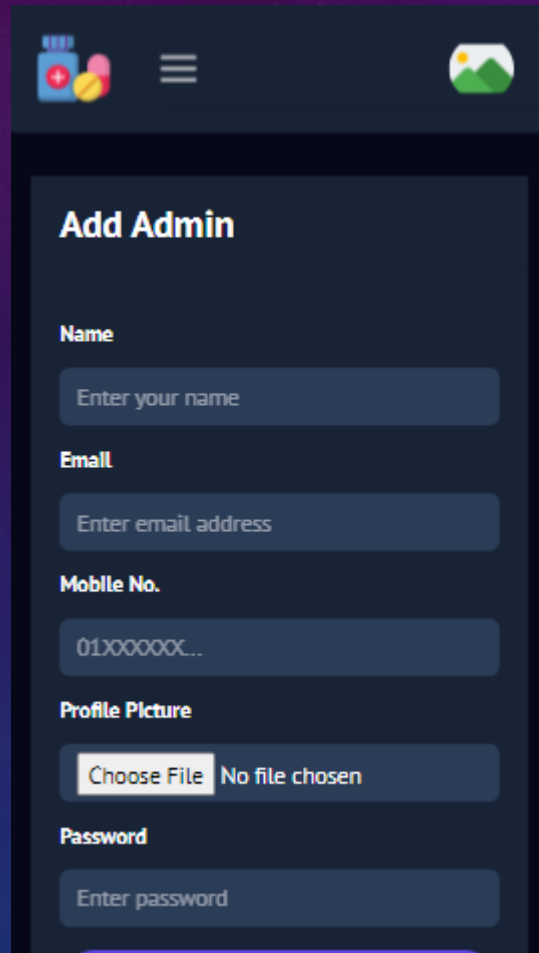

Below the summary cards, there is a section titled 'Requested List For Approval' with a table:

Name	Email	MobileNo	Picture	Action
No Request Found				

At the bottom of the page, there is a copyright notice: 'Copyright © 2021 . All rights reserved'.

# Add Admin

The image shows a mobile application interface for adding an admin. At the top, there is a header bar with a blue icon, a hamburger menu, and a landscape icon. Below the header, the title "Add Admin" is displayed. The form consists of five sections: "Name" with a text input field, "Email" with a text input field, "Mobile No." with a text input field, "Profile Picture" with a "Choose File" button and "No file chosen" text, and "Password" with a text input field. The bottom of the screen shows a purple bar.

# Conclusion

- This system will help people to find all types of medicine or search medicine with their disease and order online easily. People can order medicine online by cash on delivery or online payment. People will find medicine which they can't get in local pharmacy
- People can find hospital and ambulance and also doctor's contact number in emergency situation.

The background is a gradient of dark blue to purple, overlaid with a pattern of small, light blue stars. Several faint, white technical diagrams are visible. In the top right, there is a large circular gauge with concentric circles and radial lines, with numbers 100, 110, 120, 130, 140, 150, 160, 170, 180, 190, 200, and 210. In the bottom right, there is a circular diagram with concentric circles and a dashed line with an arrow. In the bottom left, there is a circular diagram with concentric circles and a dashed line with an arrow. In the top left, there is a small circular diagram with concentric circles and a dashed line with an arrow.

# Thank You
